

### **Shaping Information Security Award**

Sponsored by *Info Security Products Guide*, a leading buyers' guide, this award recognized the company's "exceptionally accurate and function-rich Intrusion Detection and Prevention solution," and chief technology officer Michael Scheidell for "his contribution to the industry and to users of security products and services around the world." SECNAP® was one of 10 winning companies announced in May 2008 from a field of hundreds. Other winners included Microsoft and SonicWALL.

### **Technology Award**

Sponsored by *South Florida Business Journal*, Citrix and Verizon Wireless and presented by Host.net in May 2008, this award recognized top technology leaders in South Florida in eight categories. Michael Scheidell was honored in the Internet-Based Technology category for "driving technological advancements in network and email security."

### **Hot Company**

SECNAP was voted a *Hot Company* at the 2008 Technosium Executive Summit in January for how its "products, people, performance and potential differentiate SECNAP in the network security space." Voting was conducted by a team of peers in leading technology companies—including Cisco Systems, IBM, Juniper Networks, Intel and others.

### **Emerging Technology Vendor**

The Email Security Gateway Powered by SpammerTrap® was named to the *Channel Reseller News* annual 'Emerging Tech' List in June 2008. The prestigious list is used by VARs, VADs and channel solution providers as a reference guide to "up and coming" products and vendors.

### **Hot Product**

The Email Security Gateway was named a Hot Product in the VAR/VAD space at the XChange Solution Provider Conference in Los Angeles in March 2008.

### **The King of Spam Filters**

After reviewing the Email Security Gateway Powered by SpammerTrap in May 2008, *Secure Computing* dubbed it "The King of Spam Filters," and also awarded a full five stars for ease of use, customer support and documentation. The "dedicated spam detection and protection tool" also earned kudos from the reviewer for "state of the art spam detection."

### **Best Products and Services of 2008**

In July, both the Email Security Gateway Powered by SpammerTrap and the Network Security Solution Powered by HackerTrap™ won Best of Breed kudos in the Anti-Spam and Intrusion Prevention categories respectively. The prestigious awards are sponsored by *Network Products Guide*.

### **MVP Award for Technology Leadership**

In December, SECNAP CTO Michael Scheidell won the 2008 *Most Valuable Performer Award for Technology Leadership*. In announcing the winners, Network Products Guide cited his relentless commitment to develop and deploy the most innovative security solutions and best security practices—enabling SECNAP clients to minimize risk and optimize their security investment.

### **BuzzWorthy Product**

The Email Security Gateway earned distinction as "buzzworthy"—an honor awarded by *Everything Channel* to just 10 products from a field of more than 100 companies exhibiting at the XChange Conference in Dallas in August 2008.
