

Best Product of 2010

SECNAP's Premier VPS hosted solution took the 2010 Best Product award in the Email Security category for bringing "improvements to hosted email security by combining advanced functionality, ease of use, and flexibility," according to *Network Products Guide*, which sponsored the award.

Tomorrow's Technology Today

The SpammerTrap® Email Security solution won the 2009 Tomorrow's Technology Today award sponsored by *Info Security Products Guide* in recognition of "superior technologies that make it suitable for today's needs, while being ready for the threats of tomorrow." SpammerTrap was honored in the Email Security category for its positive impact in today's highly sophisticated, blended-attacks environment.

Global Product Excellence, Customer Trust

SpammerTrap received the 2009 Global Product Excellence Award in the Anti-Spam class, sponsored by *Info Security Products Guide* to recognize the very best products in information security. SpammerTrap was singled out for exceptional accuracy and ease of use, and for being "ahead of the curve when it comes to providing best-of-breed protection from spam."

Five-Star Partner Program

The SECNAP Channel One Partner Program was awarded five stars in the *2009 Partner Program Guide* published by Everything Channel. The prestigious five-star ranking recognizes an elite group of vendors who provide exceptional partnering elements in their channel programs.

Emerging Technology Vendor

SECNAP Network Security was named to this prestigious *CRN* list for the second consecutive year for its innovative email security solution and robust partner program.

Processor Magazine

A product brief called the SpammerTrap a "high-performance solution" and noted that "its hardened OS was built for speed and security, yet it is still remarkably easy to set up with its QuickStart Wizard and friendly user interface." Also highlighted were its six-month money back guarantee and "reasonable pricing that includes support."

Hot Company of 2009

SECNAP Network Security won distinction as a Hot Company during the Technosium Executive Alliance Summit in Silicon Valley, an event honoring the top technology firms of 2009. SECNAP was also named a Hot Company in 2008.

ACE Innovator of the Year

Michael Scheidell, SECNAP founder and chief technology officer, was one of five worldwide finalists for the highly prized Award for Creativity in Engineering sponsored by *EE Times*.
