

The All-in-One Solution Revolution

A concept so radical you won't believe it. Until you try it.

Exceptional Performance

- Consistently accurate to 99%+
- Multi-layered security means extreme efficiency and speed
- Faster, more accurate processing
- Hardened SpammerTrap O/S built by industry experts operates at lightning speed

Industry-Leading Accuracy

- Advanced firewall blocks 80% of spam at the wall—no further action needed
- Not one but four reputation databases checked for signatures
- Up to 4,000 security tests block another 15% of spam
- Additional layers and checks block or quarantine the remaining spam
- Heuristics filtering
- Bayesian learning module

Unbelievable Ease of Use

- Awarded five stars by SC Magazine
- Simple 20-minute installation
- Intuitive GUI and QuickStart wizard mean anyone can install it
- No admin intervention required
- Plug, play, walk away

All This, Standard

- Anti-spam, anti-virus, anti-malware
- In and outbound encryption and content filtering
- Email spooling for email continuity
- Archiving with ENT and GEM models
- Robust reporting package
- ROI in under two weeks

Clients tell us all the time they don't believe we can really deliver all the features and functions they need at one low price—in a single appliance that's so smart just about anyone can install it. ***Until they try it.***

The SpammerTrap® email security solution delivers enterprise-class security at SMB prices. Small and mid-size businesses can afford the most advanced protection available. And larger enterprises can reduce their investment without sacrificing security.

Only SpammerTrap delivers a revolutionary combination of exceptional performance and speed, industry-leading accuracy, and five-star ease of use—plus a rich array of features at no extra cost.

Well-developed open source tools, proprietary software, and a hardened SpammerTrap operating system make this a highly efficient solution.

Which makes it less expensive for us to deliver.

And less expensive for you to buy.
