

SpammerTrap® Email Security Appliances

Free Hardware Replacement Every Three Years

The Latest Technology

Cybercrime is rampant, expensive, and ongoing—and its double-digit annual growth shows no sign of diminishing. Technology evolves rapidly in response. Hardware is enhanced. Email security requirements change as businesses grow.

Keeping Pace

At SECNAP Network Security, we understand how dynamic the security landscape can be. That's why we're pleased to offer a special promotion to ensure that your security solution keeps pace with the changing environment.

We call it **Free Every Three** because it guarantees you receive new replacement hardware every three years. Free.

Here's How It Works

It's simple. For first-time buyers, purchase any model of our award-winning Email Security Solution. Sign a 36-month service agreement, paid in advance. Then, sit back and enjoy unparalleled email security. In 36 months, we'll send you the newest hardware in exchange for your trade-in and new service agreement.

Full Credit for Upgrades

Current SpammerTrap owners can take advantage of this offer, too. At renewal time, simply choose whether to retain your present model or upgrade to a more powerful model.

For the same or equivalent model, sign a 36-month renewal agreement, paid in advance. We'll ship a new replacement immediately. Send us your old one.

Purchase any larger model of your choice, and we'll credit the full price of your original equipment toward purchase of the new model.

Seven Models to Grow with You

The SECNAP Email Security Gateway offers seven models to support organizations ranging from small businesses to global enterprises. Scalable to support as few as 100 or as many as two million email users.

Regardless of which model you choose, you'll have the assurance that your system is protected by the leading technology on the market today:

- Inbound and outbound filtering of spam, viruses, phishing emails and other malware
- No false positives, no more searching for lost emails or important attachments
- Sophisticated sender reputation filter that leverages not one but four separate reputation databases
- Killer spam firewall incorporating DoS and DHA attack protection, milter support, tarpitting and much more.

In fact, our email security solution is so exceptional that it has earned these kudos and more:

- Global Product Excellence Award for Anti-Spam, *2009 Info Security Products Guide*
- Tomorrow's Technology Today Award for Email Security, *2009 Info Security Products Guide*
- Best Anti-Spam Product of 2008, *Network Products Guide*
- The King of Spam Filters, *SC Magazine 2008*

Can you really afford not to take advantage of an opportunity like this? Call us today, and see what the buzz is about!
