

Managed Services Program

1 The Solution is Managed

SECNAP Network Security offers our valued Channel One Partners an easy-to-use, easy-to-manage virtual Email Security solution that requires no hardware purchases, scales effortlessly, and generates recurring monthly revenue for you.

By leveraging the SECNAP Virtual Private SpammerTrap® (VPS) Network, Channel One partners can offer their clients the industry's most advanced email security solution as a Managed Service.

Totally in the cloud. Totally secure.

Channel One Partner Advantages

- Double-digit margins
- Lead generation
- Sales training
- Product training
- Quarterly promotions
- Product evaluation and demo units
- Local/national marketing opportunities
- Expert technical support 24/7
- Easy to do business with
- Committed to our partners' success
- www.secnap.com/partners/portal

2 How It Works

On the SECNAP VPS Network, we'll brand a dedicated VPS for you. Then, you'll attend a brief, web-based training session on the VPS user interface, which reviews all you need to know to set up and manage your clients' email security.

Now you're ready to offer managed email security that's advanced, and affordable.

3 Priced to Scale

Channel One Managed Services Partners can begin adding email users almost immediately—very little set-up is required, and no set-up fees apply. A nominal monthly fee includes your first 500 email users. Beyond that, pricing is on a per-user basis and scales down as your user population scales up.

Highly efficient. Highly convenient.

Ask about our New Partner Ramp-Up promotion—a limited-time offer!
